MOONHACK 2025

How to submit a project

Click the submit button

View the 6 projects available on the project page. Select which one is the best for your coders. Or maybe offer a range of projects!

Submit all your entries in one go

The submission page is where you can submit all entries in one go, or come back multiple times to add entries when they are finished.
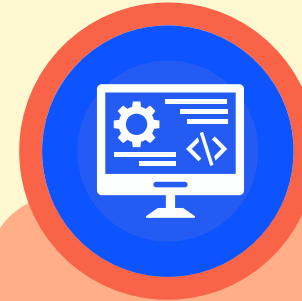

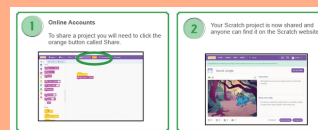

SHARE YOUR PROJECT WITH THE WORLD!

All of your project submissions can be sent in this one form. Sharing Scratch projects? Share ALL URL's at Q2. If you have files to submit, send them to moonhack@codeclubau.org. Scratch files can also be sent to this email address.
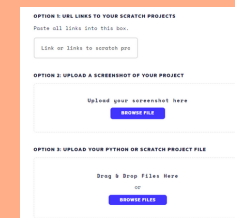

Scratch projects?

If you are submitting Scratch projects make sure they are set to 'share'. Not sure how to do this? Check out our other poster.

Online Accounts
1 To share a project you will need to click the orange button called Share.

2 Your Scratch project is now shared and anyone can find it on the Scratch website

Project sharing

Scratch - share the URL, or upload the .sb3 file
Python - upload the python file
micro:bit - share the URL or upload the file

OPTION 1: URL LINKS TO YOUR SCRATCH PROJECTS
Paste all links into this box.

Link or links to scratch pro

OPTION 2: UPLOAD A SCREENSHOT OF YOUR PROJECT

Upload your screenshot here

BROWSE FILE

OPTION 3: UPLOAD YOUR PYTHON OR SCRATCH PROJECT FILE

Drag & Drop Files Here
or
BROWSE FILES

Click submit

That's it! Moonhack headquarters will review submissions. Some will make it to the Showcase page and some will be determined as a winner!
