

MOONHACK 2026

Australia

October 14 - 31

Celebrate World Space Week by participating in MOONHACK!

What is Moonhack?

Moonhack is a free coding challenge run every year by Code Club Australia. Kids around the world register to take part in two weeks of coding fun. This year there will be 7 themed projects using Scratch, Python, micro:bits and AI for everyone to have a go at, with step-by-step instructions and support materials. This year our projects are based on our theme of Online Safety and Security.

To take part visit www.moonhack.com

- have a go at Moonhack projects from previous years
- sign up to the mailing list to get all announcements and updates
- when it's time, complete your registration to ensure you are counted in this year's Moonhack adventure
- share your adventure with everyone #moonhack
